### The Patrol Operation

**The D'Iberville Police Department will establish saturation patrols, starting April 26 thru May 2, 2010, in support of the "Click it or Ticket" Campaign to enforce the seat belt laws.**

#### **TEEN INITIATIVE SEATBELT**

Teens have higher fatality and injury rates in motor vehicle crashes than any other age group. One of the most effective measures a teen can take to prevent injury and death in a crash is to wear a seat belt, but the majority of fatally injured teens are not buckled up. While observed seat belt use for teens has risen gradually, the majority of 16-20 year old passenger vehicle occupants killed in car crashes continue to be unrestrained (58 percent in 2006). Past demonstration projects and evaluations of teen belt use indicate that strategies that have been effective to increase belt use for adults are also the most promising strategies for teens. These include primary laws and highly-publicized enforcement of belt laws (such as "Click it or Ticket" programs). Historically, NHTSA has done smaller-scale, community-based projects to address this problem area. Unfortunately, seat belt use for teens in fatal crashes has remained virtually unchanged and necessitates a concentrated, intense, large-scale effort.
