Parents

- Make your child eat dinner before setting out.
- Children should carry quarters so they can call home.
- Ideally, young children of any age should be accompanied by an adult.
- If your children go on their own, be sure they wear a watch, preferably one that can be read in the dark.
- If you buy a costume, look for one made of flame-retardant material.
- Older children should know where to reach you and when to be home.
- You should know where they are going.
- Although tampering is rare, tell children to bring candy home to be inspected before consuming anything.
- Look at the wrapping carefully and toss out anything that looks suspect.

Homeowners

- Make sure your yard is clear of such things as ladders, hoses, dog leashes and flower pots that can trip the young ones.
- Pets get frightened on Halloween. Put them up to protect them from cars or inadvertently biting a trick-or-treater.
- Battery powered jack-o-'lantern candles are preferable to a real flame.
- If you do use candles, place the pumpkin well away from where trick-or-treaters will be walking or standing.
- Make sure paper or cloth yard decorations won't be blown into a flaming candle.
- Healthy food alternatives for trick-or-treaters include packages of low-fat crackers with cheese or peanut butter filling, single-serve boxes of cereal, packaged fruit rolls, mini boxes of raisins and single-serve packets of low-fat popcorn that can be microwaved later.
- Non-food treats: plastic rings, pencils, stickers, erasers, coins.

Counterfeit 100's and 20's being passed in our area.

The D'Iberville Police Department is advising our businesses and citizens to be cautious when receiving cash during a money transaction. We have had two separate cases in the past week, where suspects have passed counterfeit 100 and 20-dollar bills. Please take your time and inspect the money during your transaction and as always we encourage our citizens to call the D'Iberville Police immediately about all suspicious activity.

KNOW YOUR MONEY

How to Detect Counterfeit Money

The public has a role in maintaining the integrity of U.S. currency. You can help guard against the threat from counterfeiters by becoming more familiar with United States currency.

Look at the money you receive. Compare a suspect note with a genuine note of the same denomination and series, paying attention to the quality of printing and paper characteristics. Look for differences, not similarities.

Portrait

The genuine portrait appears lifelike and stands out distinctly from the background. The counterfeit portrait is usually lifeless and flat. Details merge into the background which is often too dark or mottled.

Federal Reserve and Treasury Seals

On a genuine bill, the saw-tooth points of the Federal Reserve and Treasury seals are clear, distinct, and sharp. The counterfeit seals may have uneven, blunt, or broken saw-tooth points.

Border

The fine lines in the border of a genuine bill are clear and unbroken. On the counterfeit, the lines in the outer margin and scrollwork may be blurred and indistinct.

Serial Numbers

Genuine serial numbers have a distinctive style and are evenly spaced. The serial numbers are printed in the same ink color as the Treasury Seal. On a counterfeit, the serial numbers may differ in color or shade of ink from the Treasury seal. The numbers may not be uniformly spaced or aligned.

Paper

Genuine currency paper has tiny red and blue fibers embedded throughout. Often counterfeiters try to simulate these fibers by printing tiny red and blue lines on their paper. Close inspection reveals, however, that on the counterfeit note the lines are printed on the surface, not embedded in the paper. It is illegal to reproduce the distinctive paper used in the manufacturing of United States currency

KNOW YOUR MONEY

If You Receive a Counterfeit

- Do not return it to the passer.
- Delay the passer if possible.
- Observe the passer's description, as well as that of any companions, and the license plate numbers of any vehicles used.
- Contact your local police department or [United States Secret Service field office](#). These numbers can be found on the inside front page of your local telephone directory.
- Write your initials and the date in the white border areas of the suspect note.

-
- Limit the handling of the note. Carefully place it in a protective covering, such as an envelope.
 - Surrender the note or coin only to a properly identified police officer or a U.S. Secret Service special agent.

Burglary of a motor vehicle is a crime of opportunity. Don't become a victim, protect your car and personal property.

- Residents are encouraged to call the D'Iberville Police immediately about all suspicious activity. Don't worry about feeling embarrassed if your suspicions are wrong. Think instead about what could happen if your suspicions are right and you don't call. It is the Police Department's job to investigate suspicious matters, and any assistance in spotting suspicious persons or activities is greatly appreciated.

- REMEMBER:**
1. A thief can burglarize your vehicle in less than 30 seconds!
 2. It only takes you about 20 seconds to at least move your valuables into your trunk, out of sight.
 3. If you see someone committing a crime **Do Not** confront them, call the police immediately.
 4. **Be** alert, **Be** aware, and be prepared to **Be** a good witness.

If you have questions concerning vehicle burglaries or other crimes, please contact your D'Iberville Police Department at 396-4252. Should you need to report an in-progress crime, please call 865-7060, or 911.
